AROMATIC SCHNAPPS

Van Aromatic Schnapps zijn in ons blad van april 1986 al enkele achtergronden belicht. Door concurrentie van Hamburg, ontstaan zo rond de eeuwwisseling, voerden de meeste export-distillateurs, van Culemborg tot Delft, wel een aromatic schnapps in hun pakket. Verzonden werd niet alleen naar West-Afrika (en deze markt bestaat gedeeltelijk nog), maar ook Australië en Noord- en Zuid-Amerika kenden dit produkt. Een zeer opmerkelijk aspect is de sterke relatie welke werd gelegd met gezondheid en heilzame werking van deze drank. Dit mag in Nederland en vele andere landen niet meer en de teksten op de etiketten zijn geruisloos aangepast.

Er is een hele serie van "Friend Jan" reclameplaten, waarin Jan, in Volendammer kostuum, verlichting brengt met Wolfe Aromatic Schnapps. Wolfe (opgericht 1828) was (is?) een Amerikaans handelshuis die bij voorbeeld ook in whisky en wijn handelde. Hoewel van oorsprong Amerikaans verzond Wolfe vanuit Hamburg aromatic schnapps over de hele wereld. CERTIFICATE OF ANALYSIS

SAMPLE OF A. C. A. NOLET'S AROMATIC SCHNAPPS

Received on 19th December 1883.

We have submitted Nolet's Aromatic Schnapps to a very careful examination and are of opinion that it is a perfectly pure and wholesome cordial. It is free from any deleterious or pernicious principle usually present in this class of spirits and its alcoholic strength is above the average whereby its diuretic and Antispasmodic properties are materially increased.

THE ANTI-ADULTERATION REVIEW WRITES ABOUT
THE A. C. A. NOLET'S GENEVA.
SCHIEDAM AROMATIC SCHNAPPS

(Hollands Gin).

In contrast to the many spurious compounds sold in this country and abroad as „Schiedam Geneva” or „Hollands Gin”, we have much pleasure in testifying to the superior quality of „A. C. A. Nolet's Aromatic Schnapps”, a well known and largely used cordial, or Dutch Gin. From the sample forwarded to us for examination, we can with confidence, as the result of a chemical investigation, speak in terms of high approval of this spirit as free from adulteration, and of great excellence as a diuretic and wholesome stimulant. Its tonic and diuretic properties also will be found of great value. A special feature of this spirit is its freedom from „amilic alcohol”, or fusel oil the most intoxicating and pernicious principle in all distilled liquors, and also being flavoured and aromatised with the extract of the berry „Juniperus Phoenicia” instead of the „Juniperus” communis hitherto exclusively used.

THE BRITISH TRADE REVIEW WRITES AS FOLLOW.

Every one is acquainted with the far famed Schnapps, manufactured in Schiedam-Holland.

Its reputation is universal and as the demand for the article is so enormous a good deal is sold for genuine, which only bears the name of Schiedam Schnapps. In order to please our readers, who have for this article commercial interests, and also the consumers, we wish to fix their attention to the fact, that a very genuine Schnapps perfectly pure and suitable for export to all Spanish Colonies, can be had at Mr. A. C. A. Nolet Schiedam, one of the most honorable firms for Genuine Geneva. We have submitted some samples from the stock of Messrs. Bulfield & Co. to the genuine marks of Schiedam Geneva, and they all consider the quality superior and Excellent, worth to be recommended as Genuine Schiedam Schnapps.
